SUMMARY

Passionate Java developer with a deep understanding of the language and its ecosystem. Skilled in designing and implementing robust and efficient Java applications. Strong problem-solving capabilities and a keen eye for detail. Committed to delivering high-quality code and eager to contribute to cutting-edge projects in the world of Java development.

EDUCATION

B.Tech in Computer Engineering, Dr. Babasaheb Ambedkar Technological University, Lonere August 2023
CGPA: 7.29/10.0

Jai Bhavani High School (Class XII HSC), Gadhi, Maharashtra July 2016 - May 2018
Percentage: 71.08

Nutan Koleshwar Vidyamandir (Class X SSC), Kolgaon, Maharashtra March 2016
Percentage: 85.80

PROJECTS

MCQ Portal

- Developed a dynamic MCQ portal using Java, Servlet, JSP, and JDBC technologies.
 - Prioritized user-friendly design principles, resulting in an intuitive and engaging interface.
 - Taking the quiz, Managing and displaying the results instantly.
-

Voting Application

- A web application for managing elections based on Servlet.
 - Serves functionalities of conducting elections and displaying results.
 - Provides an interface for registration and manual verification of voters.
-

RFID Door Lock System using Arduino

- Created RFID door lock system with Arduino for secure access control.
- Integrated RFID modules and sensors with Arduino for user identification and automatic door unlocking.
- Programmed and tested Arduino firmware for reliable communication between RFID reader and door lock mechanism.

SKILLS

Languages :	Core Java , Advance Java
Advance Java :	JDBC , Servlet , JSP , MVC Design Pattern , Session Handling and Cookies
IT Constructs :	OOPs, HTML, CSS, Data structures and algorithms
Development tools :	Git, Github , IntelliJ IDEA , Oracle
Database :	MySQL
